

This week in Maths Class Two will be developing their place value understanding which is crucial to all areas of Maths. We will continue to problem solve using $<$ and $>$ and begin to use our hundreds squares work to add/subtract 1, 10 or 100 to increasingly large numbers.

In English Class Two we have a little to finish with the brilliant text 'The Firebird' as we have extended our learning by hearing the second version. We will respond with poetry and hear Stravinsky's Firebird ballet to complete this work. We will continue focusing on developing joins in all of our handwriting.

The children are expected to read for 10-20 minutes each night and for an adult to write a very brief note in their reading record, which can include any difficult words that they don't know. All the children know that there are prizes to be given for any child who has read with an adult for 25 times in a half term! Some are nearly there!!
